HOW TO MEASURE

Our garments are cut to accommodate active working conditions. Here's how to get the correct size and ensure a comfortable fit.

LADIES

Be sure to measure your body. Do not measure over shirts or slacks. Hold tape measure close but not tight against the body.

BUST

Measure across fullest part of bust/chest keeping arms relaxed at sides. Keep tape measure straight and parallel to the floor.

WAIST

Measure at your natural waistline at its smallest part.

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

HIGH HIP

Measure the protruding points of your hip bones, approximately 3" below your natural waist.

MEN

For men, as a general rule, the number of inches measured will equal your size, when measured correctly. Be sure to measure your body. Do not measure over shirts or slacks.

NECK

Measure around base of neck (lowest part). Number of inches equals neck size.

SLEEVE LENGTH

Start from the center of the back of neck and measure across the shoulder to the elbow and down the wrist.

CHEST

With arms at sides, measure across fullest part of the chest, under arms and across shoulder blades. Keep tape measure straight across back.

WAIST

Measure your natural waist at the height you normally wear your pants. Keep the tape measure firm but not tight.

INSEAM

Measure the inside of your leg from crotch down to the top of the shoe. Or, measure a similar style of pants that fit well. Measure from the crotch seam to the hem.

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

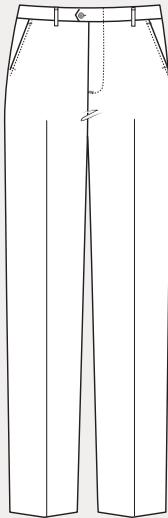

FIND YOUR FIT

Our garments are cut to three standard fits for more uniform sizing. See individual product descriptions.

SLIM

Modern silhouette with a slim cut to fit close to the body and chest, narrow sleeves, tapered through the waist

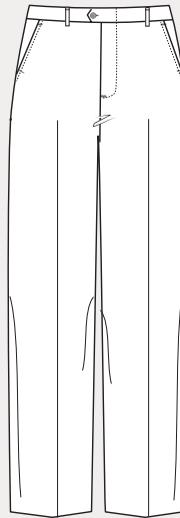

Sits below waist, closest fit to body, tapered through hip, seat and thigh, straight or tapered leg opening and flat front

TAILORED

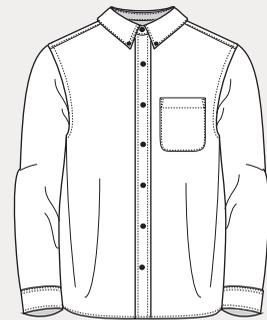

Classic silhouette with a trim cut through the body and chest, trim sleeves

Sits slightly below waist, fitted through hip, seat and thigh, straight or tapered leg opening and flat front

TRADITIONAL

Full silhouette with a generous cut and more room in the body, chest, waist and sleeves

Sits at waist or slightly below the waist, relaxed through hip, seat and thigh, straight leg opening, pleated and flat front

TERMINOLOGY

 **Tuff-Pil® Plus High-Tech Acrylic** fibers used for uniform ready sweater apparel offer low-pil performance, colorfast and durability. The garment is designed to last 30–50 home wash cycles.

 **Moisture Wicking** fabric draws moisture away from your skin transferring it to the outer surface keeping you cool, dry and comfortable.

 **Soil Release** finish provides for easy care with recommended soil treatment. The release allows stains to be removed more easily during laundering.

Stain Release finish wicks away moisture, helps most stains come out in the wash, and leaves the fabric soft and breathable.

No-Iron fabric is specially treated to prevent wrinkles and the taped seams are fused to keep the shirt crisp and wrinkle free.

 **Wrinkle Resistant** fabric is treated to resist wrinkles and the garment holds its shape with multiple washes.

 **UV Protected** means more fun, less sun. The dry-mesh fabrics block harmful UV rays with up to a UPF 50 factor.

 **Natural Stretch/Comfort Stretch** fabric is engineered to provide natural stretch, flexibility and comfort.

 **Repreve®** fiber contains recycled materials – including plastic bottles. When you see this symbol on the tag, remember: It's what's in it that makes it recycled. With Repreve®, you can be sure you're creating a reprieve for the planet.

 **Home Launder/Machine Washable** is a product designed to be washed in small-batch, mild temperature conditions typical of home machine washers. The garment is designed to last 30–50 wash cycles or more.

 **Industrial Launder** is a product designed to withstand the large-batch wash/dry/press and high temperature conditions prevalent in industrial and commercial laundries. The garment is designed to last 50+ wash cycles. Bleach and other chemicals are generally not recommended. Customers should test product before using it in environments with chemicals and/or very high temperatures before deciding to use.

 **Tuff-Tested®** garments have passed testing in the field to last week after week in any light work environment. To achieve this resilience, the right fabrics, trims and finishes are selected to enhance the life of the garment. These garments are designed to last 50+ wash cycles and to withstand the large-batch wash/dry/press and high temperature conditions of industrial laundry.

 **Snag-Proof** garments resist snags wear after wear. Don't believe it? Try a wire brush!

 **FASHION** is one that has been created with current trends and fashion in mind. These fashionable styles will stay in the catalog for a minimum of 5 catalog years.

 **Water Resistant** garments are coated with DWR (Durable Water Repellent) finish that lets water bead up and roll off.

 **Waterproof** garments keep you dry with DWR (Durable Water Repellent) finish and a fully seam-sealed interior.
